Authority for Expenditure of \$ 4,730.00 is requested for purpose of installing temporary
bunkhouse facilities ~~to property~~ at Los Angeles, Calif.
(Station or Location)

Description of project:

Set up seven car bodies for bunk quarters and one body with toilet facilities.

Recommendations:

Due to the shortage of local labor it is necessary to employ Mexican Nationals at this location to supplement our crew. Men are now housed in a hotel in town which necessitates our furnishing bus transportation eight times a day. This method of handling the boarding of men cost P.F.E. Co. \$11,040.00 last year besides being unreliable for operations as you cannot exercise complete control over the labor situation during peak operations when entire crew must be available to meet emergencies. Bus is badly worn and cannot be relied upon for adequate transportation. Although we estimate a peak of 48 men will be needed here, the proposed facilities will accommodate 56 men.

As the necessity of facilities after the duration is remote the structures are of a temporary nature and properly charged to operating account as shown.

(Not included in 1945 budget)
